Submitted to His Highness.

Mr. B.Narasimha Iyengar of the Agricultural Department was granted a scholarship of £ 200 per annum for a period of three years to study Agricultural Chemistry in Germany. His scholarship expires on the 30th September 1916. As he is compelled to stop in Germany on account of circumstances beyond his control, the Director of Agriculture recommends that the scholarship may be extended by one year and that the subsistence allowance of Rs50 a month sanctioned for his family may be increased to Rs75 a month.

2 Both the Inspector General of Education and the Financial Branch support the recommendation for the extension of the scholarship but not the one for increasing the subsistence allowance.

3. The First Member is in favour of the proposal modified as suggested in paragraph 2 above. It is understood that Mr. Narasimha Iyengar is allowed facilities to undergo the course for the Doctor's degree. In these circumstances, the draft order sanctioning an extension of the scholarship may be approved.

DEPT OF AGRICULTURE
No. 1298
GOVT OF MYSORE

To
The Director of Agriculture, in Mysore
Bangalore.

Dear Sir,

The scholarship granted to me for the study of Agricultural chemistry at the University of Göttingen expires by September of this year. For reasons that are self-evident, I must remain here till the world's peace is restored. If things had gone on as I had planned I could have taken my degree in May or June of this year. Through no fault of mine, but owing to circumstances entirely beyond my control, was my study interrupted in the Winter Semester of 1914-15. Even though I had paid the University fees and entered my name for the necessary lectures and laboratory practice, I could not go into the institutes and derive the benefits that I wanted. I did not in the least suffer from ill-health. Why I could not work can only be explained in detail in due course later on.

14 6 2

I commenced my research for the Doctor's Degree about the middle of last year. The necessary pot-culture work and the following analysis of the harvest products must be continued till at least March next year, and then I expect to take my degree in about May or June 19

Under these circumstances, I request you to kindly move government to extend my period of study and scholarship together with the family maintenance allowance for one year. Of course I shall only be too glad to return Home as early as possible.

My former application for an enhancement rate of family allowance was declined by government. Since I am at present unable to make the necessary arrangements to supplement the government allowance, I request that government may be pleased to raise the family allowance by 50% at least.

I have appended a short certificate, German original and English translation, from my professor.

Trusting that my application will meet with the favourable consideration of government, and orders will be passed early enough.

Yours obediently
B. Narasimha Iyengar.

Certificate.

I certify hereby that Mr. Aiyangar from Mysore, India, who has been studying in Göttingen for some past, has worked carefully and industriously to make progress in his research for the Doctor's degree, during the past year in my Institute. Owing to circumstances connected with the war and completely beyond his control, it is a pity that his work has hindered for about six months in 1915. But happily these difficulties have long ceased to exist, and he has taken up his work with renewed vigour.

He and I hope that his research work will produce good results in 1916.

BESCHEINIGUNG.

Herrn Studierenden der Agrikulturchemie Hivenur aus Mysore, Indien, der sich seit längerer Zeit Studien halber in Göttingen aufhält, bescheinige ich hierdurch, dass er auch im verflossenen Jahre mit Fleiss und Sorgfalt der Förderung seiner Doktorarbeit in meinem Institut obgelegen hat. Durch mit dem Kriege zusammenhängende Ereignisse, deren Beseitigung gänzlich ausserhalb seiner Macht stand, ist er leider im Jahre 1915 über ein halbes Jahr gehindert gewesen, seinen Studien hier nachzugehen. Diese Hindernisse sind aber seit längerer Zeit glücklich wieder beseitigt, und er hat mit erneuter Tätigkeit seine Beschäftigung wieder aufgenommen. Er wird ich hoffe, im Jahre 1916 in seiner wissenschaftlichen Tätigkeit gute Erfolge zu erreichen.
